Chapter 1 by kantareli

"At least you should try something else with you goddam lonely life!" "Listen to me, this is not right for me. Even though I wanted to have some, you know that it could be the last thing I ever do. I'm not healthy."

"What if I tell you this isn't the same thing as last time? Today we will do something no one ever has done before."

"Stop manipulating me! You know those are the words that makes me interested."

" Oh I sure know that my prince. But no worries, today I have the feeling that nothing can go wrong."

" Okay, fck it, let's do this."

" That's the guy I know! Wait a second I have to start this thing..."

Engine started running and Frida glanced Lux with love in his eyes. "God this is the best thing what has ever happened to me. And to you, you know." she said playfully. " At least I hope so. Do we have enough knives?" Lux asked while he checked the fuel. " I think there's about 30-40 knives so... I'm pretty sure with that amount of galaxy's best cobalt weapons we can handle every situation what comes." laughed Frida and gave one of the knife packs to Lux. "Don't be so sure. I'm useless if we run out of the Q7."

Q7 was the key to everything. Without it, Lux didn't even want to think about another trip with Frida. She's kind of maniac. Q7 helped Frida to calm but when Lux took it, everything was right.
